IBT Practical Component – further details on reverse

Performance Task (One 30 minute session)

- Teams of 4 students
- Students will be evaluated on
 - o Collaboration
 - o Communication
 - o Creativity
 - o Critical Thinking

Written Task (Two 15 minute sections)

- The written task is broken into two sections:
 - o A written paragraph (15 minutes)
 - o Multiple choice mathematics (15 minutes)

IBT Practical Component Details

- The IBT practical component will be held on February 21st, 2018 at Chinguacousy Secondary School, 1370 Williams Parkway, Brampton, ON L6S 1V3
- Four time slots are available: 4:45 pm, 5:30 pm, 6:15 pm, 7:00 pm - students are required to sign up for one of the time slots using the page provided during the application process
- Within each time slot, students will be assigned to a specific group
- You must arrive at least 30 minutes before you are scheduled to begin
- Students will finish approximately 1 hour and 20 minutes after their start time
- Students will be required to sign in at the Chinguacousy Secondary School and will be shown to their classroom by staff
- Parents will be asked to wait in the cafeteria for their students to finish and will not accompany students to the classroom
- Please allow plenty of time to find parking and park only in designated parking
- Due to space constraints, we ask that only one adult escorts the student to the gym
- The practical component is broken into two sections: a performance task and a written task

IBT Practical Component – Performance Task (30 Minutes)

- The performance task will require students to work in teams of 4 to complete a challenge - students will be evaluated in 4 areas: Collaboration, Communication, Creativity and Critical Thinking
 - Collaboration includes but is not limited to active participation in the task - being an inclusive group member
 - Communication includes but is not limited to: clearly articulating ideas, ability to work effectively enhanced by communication skills
 - Creativity includes but is not limited to: the ability to help formulate and execute a plan that uses the available resources effectively
 - Critical Thinking includes but is not limited to: synthesizing data and evaluating flaws to help guide the direction of the performance task

IBT Practical Component – Written Task (30 Minutes)

- The written task is broken into two sections: a written paragraph response (15 minutes) and multiple-choice mathematics (15 minutes)
- The paragraph response – students will be evaluated based on their ability to show deep thinking and communicate ideas
- The multiple-choice mathematics section is comprised of 4 questions related to the Ontario Mathematics Curriculum for Grade 4 and 5. Students should bring a calculator.
